

# Workshop on Introductory to Community-Based Research (CBR)

22 September 2016  
Universiti Sains Malaysia

Register  
before  
9 September  
2016

## Background

This introductory workshop is intended to be the first formal step of an ongoing process of learning and development, to launch and to enhance community-based workers' role as community researchers in a community-based participatory action research projects. APUCEN is goal is to play a role in facilitating participatory activities and discussions through which participants could develop a basic understanding of community-based participatory research concepts and methodologies, such that they could participate meaningfully in the different phase of research process including planning, data collection, data analysis, dissemination of findings and action in their community.

## Objectives & Scopes

- What is community-based research?
- Why would you use community-based research?
- Who should be involved in community-based research?
- When should you employ community-based research?
- How do your institutions carry out CBR?

APUCEN, Universiti Sains Malaysia and Chiang Mai University had joined hands to initiate this introductory workshop for all APUCEN members. This is the first workshops of a series of workshops to be conducted.
